1. Introduction

One of the main objectives of the Ministry of Youth and Sports (MYS) is to strengthen the performance of youth sport leaders through education and to advocate the values and preserve the integrity of youth sports. In so doing, Mauritius is geared towards a healthy society, through sports and youth activities that can contribute positively towards nation building and prepare the youth to be leaders of tomorrow.

MYS puts in tremendous efforts and massively invests in terms of resources and infrastructure to promote and encourage participation in sports at all levels for all Mauritians.

The achievements and rewards obtained at various levels of competition and in different sports discipline is no doubt the fruits of committed officials and an efficient sports program. However, there is a long way to go to achieve the set targets.

The statistics published in this report may guide the policy makers to take efficient decisions on the basis of up-to-date statistics and indicators.

The statistics published in this report is compiled from administrative records of youth centres, Mauritius Secondary Schools Sports Association (MSSSA), and other sports monitoring units of MYS.

Given the nature of sport programs (e.g. multi-sport, community based and single) some athletes may participate in more than one activity/sport.

The Annual Statistical report 2018 contains all tables from the previous two reports namely, Statistical Indicators on Youth and Sports and Annual Statistical Report. The publication is available freely on the website of the Ministry at <http://mys.govmu.org> as well as on the website of Statistics Mauritius at <http://statsmauritius.govmu.org>

Detailed tables are given at Annex I.

Note: (i) The national handisports games are held every two years.

(ii) Participants are from age group 16 to 77 years

(iii) For year 2016; it included preliminary and final participants whereas for year 2018, there were only final participants.

¹ BOCCE is a ball sport closely related to British bowls and French petanque.

² BOCCIA is a precision ball sport, similar to BOCCE, and related to bowls and petanque. It is played by athletes with physical disabilities.

³ Torball or Goalball is a sport for the blind and visually impaired. It is a floor ball game and the playing ball is similar to a soccer ball with bells inside so that it can be heard when it is rolling across the playing field.
